Integrated with all Jack Henry Core Processors

The unique features of our eReceipt solution are:

- * The image of the check is embedded in the e-mail. There is no attached document to be opened.
- * It is very secure – the MICR line is truncated from the image of the check.
- * Time saver – frees up time of the Teller to work on more value added services.

Integrated with Signature Pads e.g.

TOPAZ TO CAPTURE SIGNATURES

Reports with drillable dashboards to track eReceipts by Teller, Branch and Transaction type

Testimonial

Cynthia A. Schroeder, Chief Information & Innovation Officer ,Vision Federal CFI

"I have been using the professional services from OSSNA for over ten years – earlier when I was at Wright Patt Credit Union (<http://wpcu.coop>) and now at VISIONS FCU (<http://www.visionsfcu.org>). They are a highly professional and dedicated team working to help their clients achieve success. When we have a need to outsource any development work, OSSNA is considered due to their responsiveness and pricing. Our last interaction was the creation of our E-Receipt product that has been well received by our Customers"
